Country singer Julie Roberts' **shoe addiction!**

Like most women, she can't have enough heels

Music may be Julie Roberts' first love — her new album, *Men & Mascara*, debuted on June 27 — but the Nashville-based crooner tells *Life & Style* that she has a passion for fashion, too. "I've always been into clothes," admitted the 27-year-old while checking out The Perfect Pair, a Nashville boutique. But don't get her started on shoes! As the 5-foot-2 star slipped on a size-6 stiletto, the first of many, she declared, "I love heels — I love to be taller!" Don't we all!
